NOW THE FIRST CHOICE FOR YOUR DECKING

[www.pembertonlh.co.uk](http://www.pembertonlh.co.uk)

Now you can extend your beautiful Pemberton Leisure Home with a stylish and innovative range of low-maintenance decking solutions. Offering a comprehensive choice, ranging from decking and balustrades to skirting and lighting, you can customise your home to suit the aspect of your plot.

Ordering your deck from the same supplier as your home minimises delays. Delivery and siting can be seamlessly co-ordinated for you.

There are many advantages to selecting uPVC decking systems. Built to withstand extreme weather conditions uPVC does not warp or crack and is UV stable. Its waterproof properties mean that it resists moss growth and does not mould or decay. The easy-clean nature of uPVC means a wash down with mild detergent and water will suffice and there is no painting, sealing or staining to worry about. The products are slip resistance tested to BS7976 and ADA, and are also fire rating tested.

Pemberton has also lead the market in specialised homes for wheelchair users for many years and now our customers can enjoy the peace of mind that their decking has been built to the same high standards as their home. With ease of access provided by a ramp and a non-slip surface, safety is paramount.

All decking systems are professionally fitted by Pemberton's own dedicated team of skilled engineers. From start to finish you can rely on our attentive service and advice.

To determine your ideal decking system just follow these steps:

1. Decide which aspects of your home require decking and either choose from our standard layouts or create your own design.
2. Select a decking colour to complement your home.
3. Decide on the colour of your balustrades and the number of treads for your stairs – either 2, 3 or 4 or alternatively select a ramp.
4. Finally, choose your accessories – lighting, skirting systems and gates.

## Warranty

Pemberton's commitment to focusing on the highest quality in all our products and production techniques means that we have the confidence to give a 3 years installation and 10 years uPVC balustrade warranty *(Subject to certain terms and conditions)*

**10** year  
warranty\*

## Lighting

We offer a range of lighting to compliment your deck and balustrade installation. Our range includes post mounted Globe and Lantern style lamps plus low voltage and solar deck lighting options.

Lantern Style Lamp

Globe Style lamp

## uPVC Skirting Systems

Skirting can be fitted to conceal the underside of your home and create additional storage space. This not only improves the look of your home it also insulates beneath it and prevents any build up of windblown debris. Skirting is available in the full range of colours / finishes and can be configured to fit different shapes and sizes of plot.

## Decking

Decking is available in beige and wood effect finish with a variety of different colours to choose from.

Beige

Sandalwood

Walnut

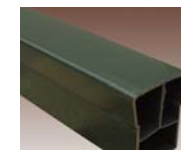

Sandstone

## Balustrade

A range of colour options to complement your decking.

Beige

Green

cream

Oak

white

## Steps & Stand Alone Stairs

No deck installation is complete without a good sound, safe access. A set of steps can be fitted securely and you can enhance the appearance of your decking by creating a personalised entrance.

uPVC Cream

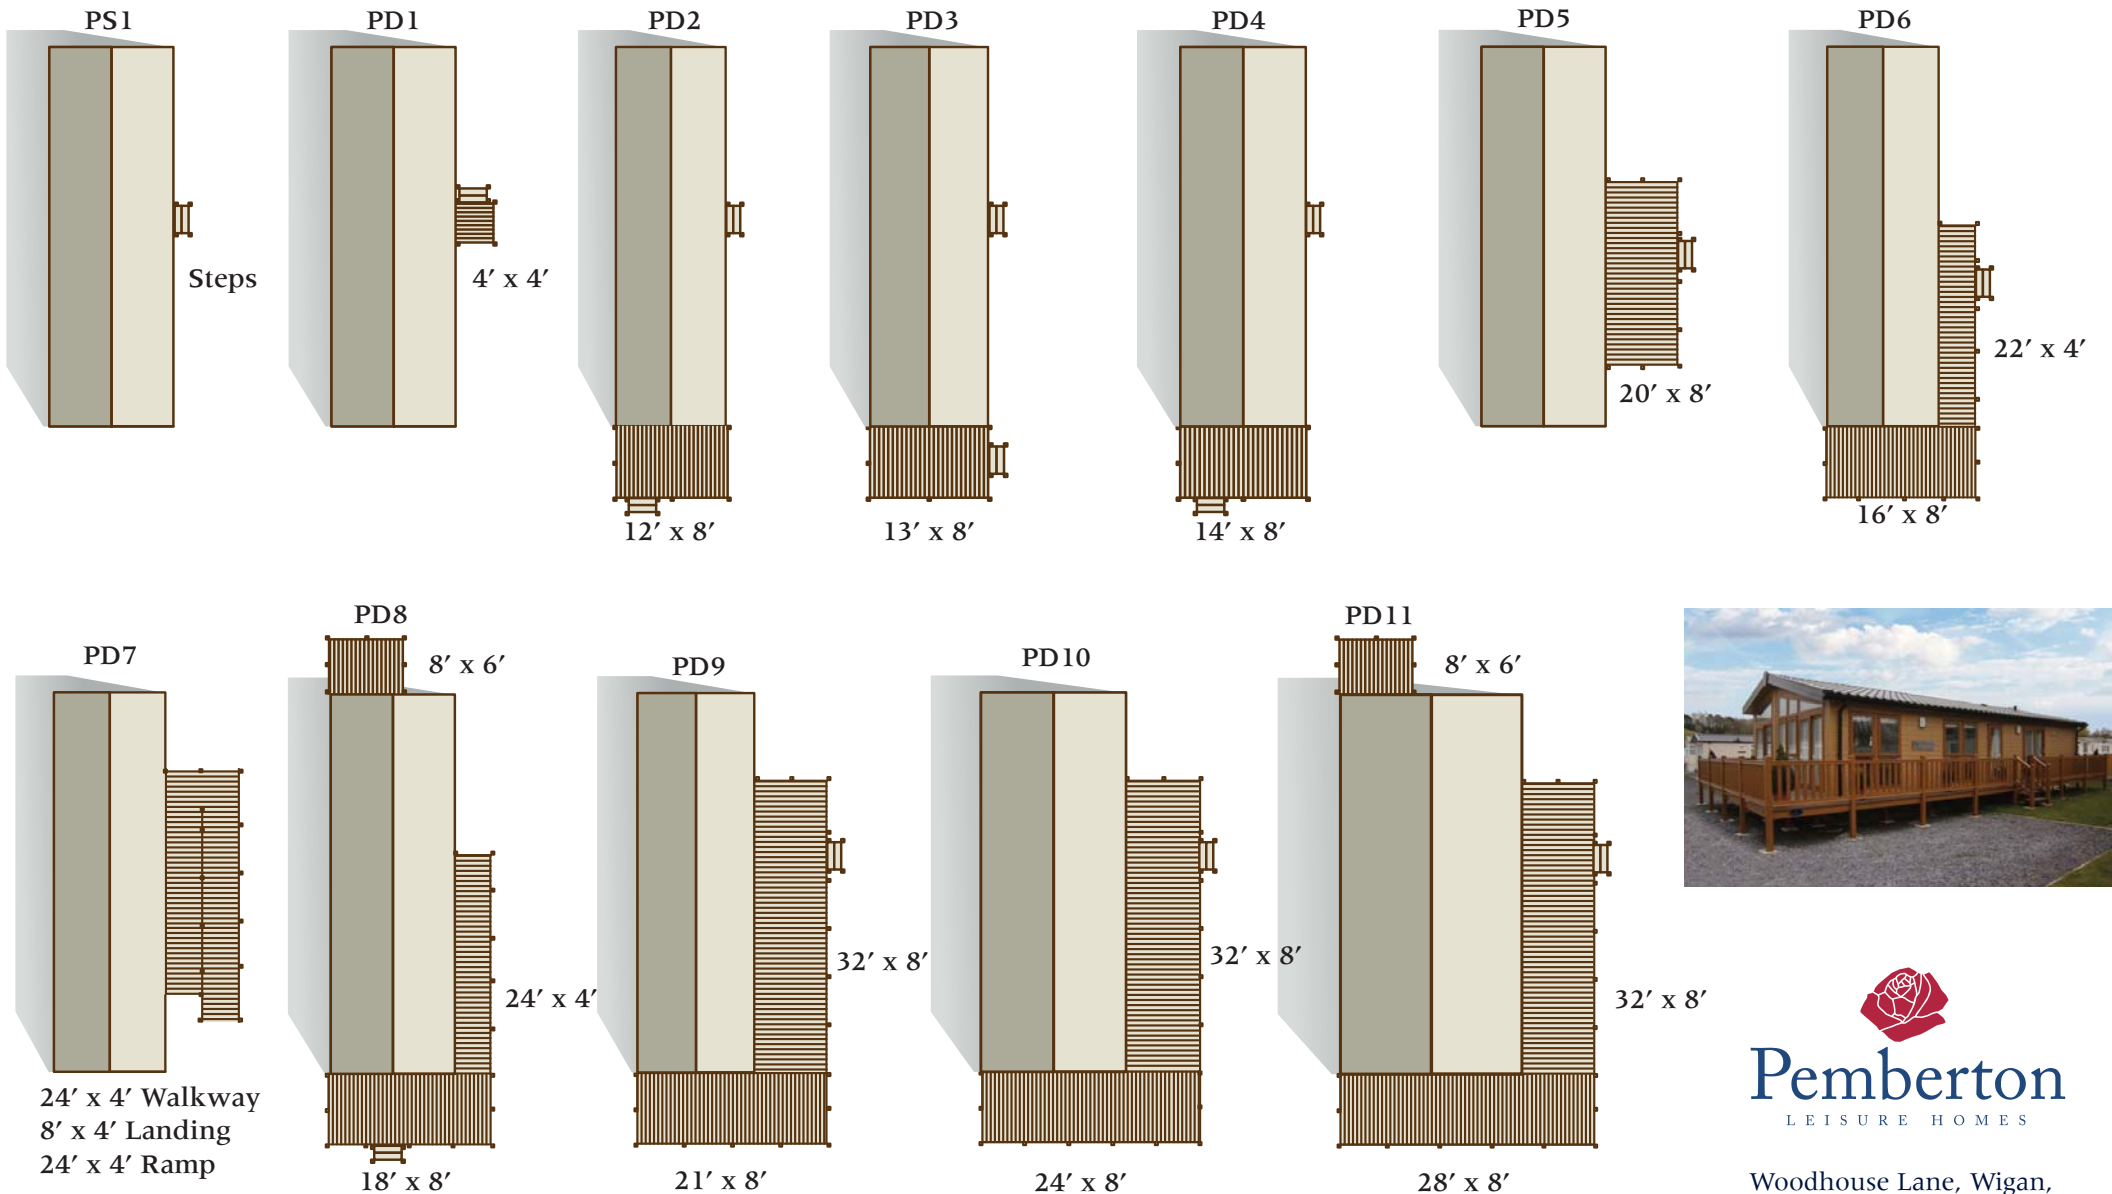

uPVC White

uPVC Ramp
