

Regent

The Regent boasts a rare concept in a 12 ft home and that is the ability to close off the lounge from the kitchen and dining area. Optional pocket doors are smartly encased behind the lounge shelving unit which provides lots of space for books and photos. The large sofa contrasts well with the luxurious accent chair – one in the 36ft and two in the 38ft home – and the fabrics invoke an atmosphere of calm and serenity.

Pemberton Regent 38 x 12 2 bed closed option shown with standard Seafoam Aluminium Cladding & White Windows & optional front French Doors

An L shaped kitchen allows for vast counter space, perfect for preparing meals or baking. The bedrooms are sleek and uncluttered with functional furniture such as floating bedside tables and a dressing table with room for storage baskets on the shelving unit in the 38ft model. Both Regent models have en-suite toilets and the shower rooms are well appointed with smart fixtures and fittings.
